PUBLICATIONS

HOME APPLIANCE REPAIR SERVICE
mahmudeps.com
July 2022

- Build websites using WordPress.
- Prepare website proposals to present to clients, provide technical support to clients and write coding using HTML and CSS.
- Manage a user guide to help clients understand site features and management of the website.
- Develop custom mobile-friendly WordPress templates and themes to align with site design and branding for clients.
- Work with the delivery team to ensure the overall quality of the experience and support this with tests and documentation.

About the Project

Electric and Plumbing Service to provide the installation and maintaining electrical systems and equipment. It may include tasks such as installing wiring, repairing or replacing damaged equipment, and inspecting electrical systems for safety.

TRAVEL AGENCY
fastflight.co.uk
April 2022

- Worked with my senior to a complete second site.
- Used markup languages like HTML to create user-friendly web pages.
- Maintained and improved the website.
- Optimized applications for maximum speed.
- Designed mobile-based features.
- Collaborated with back-end developers and web designers to improve usability.

About the Project

Initiated in the United Kingdom by a team of three people who worked to provide flight tickets, the team strived to bring continuous improvements and innovations to their services. In 2022 its head office moved from Oxford Street to Croydon and it now comprises a team of over 50 qualified, dedicated, and skilled individuals who aim to give their customers memories to last a lifetime.
